EDUCATION

University of Mumbai **CGPA: 8.4/10**
BE in Electronics and Telecommunication
Aug 2018 - Jul 2022.

A.J Mandir, Karjat *(HSC, Science, 88%)*
Jul 2016 - Jul 2018

Sharada Mandir, Karjat *(Matriculation, 95%)*
Jun 2016

PROJECTS

Chatbot for vaccine registration *Deep learning*

Worked on building and training chatbot using deep learning.

Technologies: Python | Jupyter Lab

Certification Platform *Web development*

Worked on Certification platform website which contain various courses on different domain offered by IEEE SIES GST.

BookMyDose *Web Development and ML*

Worked on BookMyDose project, which is a Full stack web application. Also integrated ML chatbots and recommender for making it user friendly.

ACHIEVEMENTS

IncubateIND Hackathon *(Special mentioned)*

We got special mentioned out of 40+ entries on the topic Healthcare and Education, with the Full stack web project “BookMyDose”.

Ideathon 2020 *(Special mentioned)*

Successfully reach to the grand finale round of hackathon organized by AICF government college of Aurangabad.

Cisco Netcad National level codathon

Crossed 2 levels of codathon out of 3. Codathon was focused on Python fundamentals

Coding Skills

Machine Learning : Python

Web : HTML, CSS, Bootstrap, JS, Node.js, MongoDB, React.

Image Processing : Scilab, OpenCV

Design: UX-UI(Figma), Customized logo

POSITIONS OF RESPONSIBILITY

DSC Core Team member *(Google)*

Working on projects from various domains of engineering and collaborating with the Google Developer Expert’s Group in organising workshops, hackathons and building the coding culture in SIES Graduate School of Technology.

Influencer and Co-organizer of Raigad Community
(CrowdSource By Google)

Spread the word about Crowdsourcing By Google through various workshops, events which mainly based ML. Also participated in various campaigns organized by community.

Campus Business Manager *(Prepbytes)*

Get experience about Marketing, Content writing. Performed various tasks successfully and got recognition as a Super hero CBM.

CERTIFICATIONS

Full stack web development Specialization *(Coursera)*

Learned HTML, CSS, JS and framework. Used expressjs, nodejs, passportjs and other packages. Worked on full stack MERN projects and some basics of web security.

Programming Essentials in Python *(Cisco)*

Learned the fundamentals of object-oriented programming and the way they are adopted in Python. And now able to write the Python programs using standard language infrastructure;

AI From the Data Center to the Edge *(IntelAI)*

Analyzing images to identify facial landmarks and coding facial feature detection and encoding faces. Leveraging the image-processing power of OpenCV using methods like template matching to identify and recognize features
